

3D CEILING TILES SUSPENDED CEILING ACOUSTICS

DESCRIPTION

- ▶ 3D Ceiling Tiles takes our popular wall tiles to all new heights; literally.
- ▶ Our creative and stylish tiles are available in a ceiling tile that can sit within any standard ceiling grid.
- ▶ Choose from five original styles and 15 colours to create three-dimensional ceiling features that not only look good but are specially designed to reduce and control echo, for a more focused and productive space.
- ▶ And you don't have to be restricted by a ceiling grid, as 3D Ceiling Tiles can be directly fixed to the ceiling, or used in a bespoke ceiling design; its completely up to you.
- ▶ 3D Ceiling Tiles are super lightweight, semi-rigid and easy to install.
- ▶ Just like the rest of the interior acoustics range, durability, longevity and performance are assured.
- ▶ Decorative and functional acoustic tiles for residential, office, education, retail, hospitality and commercial interiors
- ▶ Minimise noise in the interior environment and create unique finishes and features
- ▶ (Ceiling) treatment shall be 3D Ceiling Tiles from thermally moulded, felted polyester material containing not less than 55% recycled material.
- ▶ Install as per recommendations.
- ▶ 3 Dimensional Ceiling Tiles available in 4 styles, create a vibrant and visually appealing dimension to your otherwise plain ceiling grid.
- ▶ High performance acoustic Ceiling Tiles for sound control in Commercial and Education spaces, perfect for open plan areas.
- ▶ Designed to fit standard 600x600 ceiling grids
