AGILE TEACHER WALLSPACE

"Awesome resource storage capacity!"

"Use colour to make it vibrant!"

"Combining media and storage for an amazing teaching resource!"

► Storage in any classroom is generally at a premium. Why not consolidate it all into one place?

► Keep the classroom as distraction free as possible and have all the storage up front - consolidate it with the whiteboard or smart screen and have everything at your teachers finger tips!

► Our Modular Storage Wall can be solid fitted or be freestanding – used as a room divider, in an open class layout.

► Being fully modular means that each double door module can be adapted to house most things from teachers resources to a coat cupboard for teacher or student coats.

► Use Modular Storage WallSpace for:
  · Coat cupboards
  · Student tubs storage
  · Personal belonging lockers
  · Stationary storage
  · Teachers resource storage
  · Art supplies storage
  · I-Pad or laptop storage & charging
  · Options are endless
